

COMMUNITY FORUM - 2007 SCHOOL BOARD ELECTION: Effective Public Education in a Multicultural Society

Organized by the Coalition for Equal Access to Education, Multicultural Families for Education & Ethno-Cultural Council of Calgary

- Are you worried about your child's performance at school?
- Does your child receive adequate support to do well in school?
- Has your child experienced bullying, discrimination or stress at school?
- Do you have some ideas to help improve our education system?

Every school board has a board of trustees. Trustees are elected people who make decisions that affect your children's education. We invite concerned **multicultural parents, youth and community leaders** to share their experiences with our education system, and to meet the trustee candidates for the 2007 school board election.
